### **New guidance published on keeping children safe from abuse and harm**

We have jointly published new guidance with the Home Office, the Department for Culture, Media and Sport, and Public Health England on keeping children safe from abuse and harm. This guidance brings together sources of information about the main risks children may be vulnerable to during the coronavirus (COVID-19) pandemic and signposts you to help and support available.

The guidance can be found here:

### **Updated guidance on the support available for post-16 training providers during the coronavirus (COVID-19) outbreak**

Applications can now be made to the ESFA post-16 provider relief scheme (July to October 2020), which is available to support providers during the coronavirus (COVID-19) outbreak. This scheme is now open. Eligible post-16 training providers, including providers co-funded by the European Social Fund (ESF) should read our policy and guidance before making an application for supplier relief.

The closing date for applications is midnight Thursday 9 July 2020. The ESFA will respond to your application by Thursday 6 August 2020.

The ESFA post-16 provider relief scheme (July to October 2020) guidance and link to apply can be found here:

### **Department for Education coronavirus helpline**

The Department for Education coronavirus helpline is available to answer questions about COVID-19 relating to education and children's social care. Staff, parents and young people can contact this helpline as follows:

Phone: 0800 046 8687

Opening hours:

8am to 6pm – Monday to Friday

10am to 4pm – Saturday and Sunday

If you work in a school, please have your unique reference number (URN or UK PRN) available when calling the helpline.

### **Handwashing advice**

It is essential that everyone washes their hands more often, using soap and water for at least 20 seconds. Hand washing with soap employs mechanical action that loosens bacteria and viruses from the skin, rinsing them into the drain. Drying hands afterwards makes the skin less hospitable to the virus. Hand sanitiser can be effective if soap is not available or the situation makes using soap less feasible (i.e. when outside) but using hand sanitiser provides none of the virus-destroying friction that rubbing your hands together and rinsing with water provides.

The latest guidance and video on hand washing can be found at:

The e-Bug project is led by Public Health England and has a dedicated webpage for learning resources on hand washing and respiratory hygiene. E-

Bug has published posters on hand hygiene, and covering coughs and sneezes, to display in bathrooms, classrooms and shared spaces.
